SECTION 5. FIRE-FIGHTING MEASURES

General Fire Hazards: COMBUSTIBLE LIQUID AND VAPOR. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. The vapor/gas is heavier than air and will spread along the ground. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back.

Suitable Extinguishing Media: Use dry chemical, CO₂, water spray (fog) or foam Alcohol-resistant foam Dry sand

Unsuitable Extinguishing Media: High volume water jet

Specific Hazards during Firefighting: Do not use a solid water stream as it may scatter and spread fire. Cool closed containers exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or water courses.

Specific Hazards Arising from the Chemical: Decomposition products may include the following materials:
Carbon Dioxide, Carbon Monoxide, Metal Oxide/oxides

Special Protective Equipment and Precautions for Firefighters: In the event of fire, wear self-contained breathing apparatus.
Wear self-contained breathing apparatus for firefighting if necessary.

Special Fire Fighting Procedures: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use a water spray to cool fully closed containers.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures: Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Material can create slippery conditions. Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas.

Methods and Material for Containment and Cleaning Up: Stop leak if without risk. Eliminate all ignition sources. Absorb with an inert material and place in an appropriate waste disposal container. Wash affected area with soap or mild detergent and water.

Further accidental release Measures: Local authorities should be advised if significant spillages cannot be contained. Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

Use only with adequate ventilation. Smoking, eating and drinking should be prohibited in the application area. Keep away from heat.
- Protection against fire and explosion:** Store and use away from heat, sparks, open flame or any other ignition source.
- Conditions for Safe Storage, Including any Incompatibilities:** 40°F - 120°F (4.4°C - 49°C). Keep container tightly closed in a cool, well ventilated place. Keep out of the reach of children. Keep away from oxidizing agents and strongly acid or alkaline materials.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Control Parameters

Occupational Exposure Limits: Contains no substances with occupational exposure limit values.

Appropriate Engineering Controls:
Individual Protection Measures, such as Personal Protective Equipment
General Information:

Engineering Measures: Handle only in a place equipped with local exhaust (or other appropriate exhaust).

Personal Protective Equipment

Eye Protection: Safety glasses. Ensure that eyewash stations and safety showers are close to the workstation location. Eye wash bottle with pure water. Tightly fitting safety goggles. Wear face-shield and protective suit for abnormal processing problems.

Skin Protection: Chemical-resistant gloves. Neoprene, Nitrile or Rubber gloves. Impervious clothing. Choose body protection according to the amount and concentration of the dangerous substance at the work place.

Respiratory: Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapours below their respective occupational exposure limits. Use with adequate ventilation. Wear appropriate respirator when ventilation is inadequate.

Hygiene measures: Wash hands before breaks and immediately after handling the product. Remove contaminated clothing and protective equipment before entering eating areas. When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.
