

SURE STEP

DESCRIPTION:

Sure Step is a additive that is mixed into concrete sealers that will provide a slip resistant surface. Sure Step is a micronized polypropylene powder that is manufactured using special equipment to provide a unique texturing agent. The particle size is carefully controlled to produce a uniform textured surface.

BENEFITS:

Add to coatings for a slip resistant surface. Provides a comfortable walking surface. Will not affect topcoat colour. Sure Step is easy to use.

DIRECTIONS:

Add contents of the 1 litre jar into a five gallon pail of concrete sealer. Mix well and apply with a roller.
