

FLOW AID

Flow Aid is a powdered additive to increase the flowability of our Rapid Repair Products. Add to mix water before the addition of the Rapid Repair material.

Flow Aid is a superplasticizer and high range water reducer. Flow Aid will improve the workability, bond, compressive strength, density, durability and abrasion resistance. It is compatible with the use of Con-Spec Latex Bonding Admixture. It does not affect set times.

TECHNICAL DATA:

Typical Properties

Appearance	White Powder
Drying loss, (%)	max 4.0
Bulk density, Kg/m ³	500 to 800
PH (20°C in 20% solution)	9.0 to 11.4

RECOMMEND DOSAGE:

- 1 packet per bag of Rapid Repair Blue-Line Grout
- 1 packet per 2 bags of Rapid Repair Mortar
- 1 packet per 2 bags of Rapid Repair Premium Patch
