Walnut

Patina Stain is a water-based formulation of Hydrochloric Acid and Metallic Salts. This formulation creates a reaction within the concrete substrate, providing deep and permanent color penetration. Patina Stain will not hide existing concrete blemishes or discoloration. The use of acrylic sealers will intensify the appearance of Patina Stain.

Caution: Corrosive Liquid. Avoid skin exposure, inhalation and contact with eyes. Wear protective clothing, gloves and respirator. If accidentally ingested, seek medical attention immediately. Please refer to MSDS Sheet #CDCS-PS01 or our toll free number, 1-877-952-0157. Patina Stain Package sizes come in 1 litre, 1 US gallon, 5 US gallons and 45 US gallons.
